OBJECTIVE

Looking for an opportunity to work in a dynamic environment that encourages personal and professional growth.

EDUCATION

Sri Manakula Vinayagar Engineering College <i>Artificial Intelligence and Data Science, CGPA: 8.6</i>	2020 - 2024 Puducherry
Sri Gnanananda Matriculation Higher Secondary School <i>Higher Secondary Certificate in Bio-Maths, Percentage:65</i>	2019 - 2020 Thirukoilur
Sri Gnanananda Matriculation Higher Secondary School <i>Secondary School Leaving Certificate, Percentage: 85</i>	2017 - 2018 Thirukoilur

SKILLS

Programming Languages: Java, Python, Dart

Developer Tools: VS Code, Google Colab, Jupyter Notebook, Android Studio

App development: Flutter

Frameworks: Scikit-learn, PyTorch

Database: MySQL

Personal Traits: Problem-solver, Collaborative, Adaptable

PROJECTS

AMETHYST | *Kore.ai XO Platform*

- Pioneered an AI-driven chatbot that triaged 95% of customer service requests, freeing up the customer support team to focus on the three biggest causes of escalations.

AGE DETECTOR | *python, TensorFlow, Keras, OpenCV, PIL, Scikit-learn, Flask, Jupyter Notebook*

- Developed a sophisticated CNN-based deep learning model focused on predicting gender and estimating age from facial imagery; secured high accuracy levels while processing over 10,000 diverse training samples.

ANYA CHATBOT | *Kore.ai XO Platform*

- Designed a virtual healthcare assistant leveraging AI to analyze patient symptoms and facilitate appointment management, enhancing patient interactions and achieving a 90% user satisfaction rating.

SPOT ON | *Kotlin, Android SDK, Google Maps API, Firebase Authentication, Android Studio, Git*

- Developed an Android application to enhance the safety of female students, incorporating real-time GPS tracking and emergency alert features to improve response time during emergencies.

INTERNSHIP

Worked as a Flutter developer in Chemin Controls and Instrumentation PVT.LTD

Launched a cross-platform smart home application with Flutter, enabling control of 10+ IoT devices and achieving 99.9% uptime, while deploying voice command features for enhanced user engagement.
