PROFESSIONAL SUMMARY

Detail-oriented Electronics and Communication Engineering graduate with strong skills in Python, SQL, Power BI, Tableau, and Excel. Completed certifications and academic projects with hands-on experience in data cleaning, visualization, and analysis. Seeking a Data Analyst role to apply analytical thinking and technical skills in transforming data into actionable business insights.

EDUCATION

B.E. in Electronics and Communication Engineering

Mepco Schlenk Engineering College, Tamil Nadu (2021 – 2025) – CGPA: 7.14

Higher Secondary Certificate (HSC)

TMHNU MHSS, Tamil Nadu – 86.6% (2020 – 2021)

Secondary School Leaving Certificate (SSLC)

TMHNU MHSS, Tamil Nadu – 85.5% (2018 – 2019)

TECHNICAL SKILLS

Languages & Tools: Python, SQL, Power BI, Tableau, MS Excel

Concepts: Data Cleaning, Data Visualization

Soft Skills: Problem-Solving, Communication, Teamwork, Leadership

PROJECTS

1. Superstore Sales Analysis Dashboard (Power BI)

- Analyzed global Superstore dataset to uncover sales trends, regional performance, and profit margins.
- Created an interactive Power BI dashboard using slicers, KPIs, bar charts, and maps.
- Identified key insights like high-performing categories and underperforming regions.

2. Amazon Viewership Dashboard (Power BI)

- Designed and developed an interactive dashboard analyzing Amazon Prime viewership patterns.
- Visualized key metrics such as peak watch hours, top genres, device usage, and regional preferences.
- Provided insights to optimize content strategy and audience engagement.

3. HR Data Analysis Dashboard (Power BI)

- Created a comprehensive dashboard to analyze employee demographics, attrition trends, and performance metrics.
- Used Power BI to visualize HR KPIs, improving decision-making in recruitment and retention.
- Delivered actionable insights for workforce planning and policy improvements.

4. IPL 2025 Batting Performance Analysis (SQL)

- Cleaned and transformed IPL batting data using SQL queries.
- Generated performance insights using metrics like batting average, strike rate, and consistency.

5. Test Cricket Bowler Analysis (SQL)

- Used SQL queries to extract and analyze performance metrics.
- Ranked bowlers based on average, economy rate, and strike rate.

CERTIFICATIONS

- Python Programming – Infosys Springboard
- Artificial Intelligence – Infosys
- Internet of Things – NPTEL (used for basic sensor data projects)
- Self-Finance Management – One-Credit Course

LEADERSHIP & ACTIVITIES

- NSS Office Bearer – Led blood donation drives and student welfare camps.
- Event Coordinator – Organized intra-college tech and sports events.
- Hackathon Participant – IoT-based Railway Trailer Weight System.
- Zonal Winner – Badminton.

LANGUAGES

- Tamil – Native
- English – Professional Proficiency

INTERESTS

- Sports Analysis
- Business Analysis
- Business Intelligence & Storytelling
- Financial Insights
- Consumer Behavior Analysis
