Career Objective

To obtain a challenging position as a Software Test Engineer where I can apply my skills in manual and automation testing, utilizing tools like Selenium, API Testing, and MySQL to ensure software quality and contribute to the success of a dynamic QA team.

Professional Summary

Detail-oriented and enthusiastic Software Test Engineer (Fresher) with a strong foundation in SDLC, STLC, and defect life cycle. Skilled in designing and executing test cases, analyzing requirements, and identifying software issues. Proficient in automation tools such as Selenium and API Testing. Committed to delivering high-quality, reliable software products through effective collaboration and continuous learning.

Technical Skills

Testing Skills: Manual Testing, Automation Testing, Test Case Design, Defect Reporting, Regression Testing, Smoke Testing

Automation Tools: Selenium WebDriver

API Testing: Postman (REST APIs)

Database: MySQL

Development Skills: Core Java (for Automation)

Methodologies: SDLC, STLC, Agile Process

Bug Tracking: JIRA

Project

AJIO Website Testing

- Conducted manual and automation testing on the AJIO e-commerce platform to ensure seamless functionality across major modules.
- Designed and executed detailed test cases for login, registration, product search, filters, cart, wishlist, checkout, and payment gateway workflows.
- Used Selenium WebDriver for automating repetitive test scenarios and Postman for validating API responses.
- Reported and tracked bugs in JIRA to ensure timely resolution and improved application performance.

Education

Bachelor of Science in Computer Science – Loyola College, Thiruvannamalai (2021–2024) – 7.9 CGPA

Higher Secondary Certificate – Kurunchi Matric Higher Secondary School (2020–2021) – 76.06%

Certifications

- Python Developer – SoloLearn (Dec 2024)
- Software Testing – Accord Info Matrix

Achievements

- Completed hands-on testing of live e-commerce modules (AJIO project) with strong defect identification accuracy.
- Achieved high academic performance (7.9 CGPA) in Computer Science.
- Completed certified Python Developer and Software Testing courses to strengthen automation and QA knowledge.

Strengths

- Strong attention to detail and problem-solving ability.
- Quick learner with adaptability to new tools and technologies.
- Effective communication and teamwork skills.
- Commitment to delivering high-quality results under deadlines.
