CAREER OBJECTIVE

To secure a challenging web developer role where I can leverage my expertise in front-end and back-end technologies to create user-friendly, responsive websites and applications. I am eager to contribute to a dynamic team, continuously learn and grow in a fast-paced environment, and apply my problem-solving abilities to develop innovative web solutions that enhance user experiences.

CAREER SUMMARY

A passionate and detail-oriented web developer with a strong foundation in **HTML**, **CSS**, **JavaScript**, and responsive design. Skilled in building dynamic and interactive web applications using modern front-end technologies like React and experienced in back-end development with Node.js and Express. Well-versed in UI/UX principles and excited to contribute to collaborative projects. Highly motivated to learn new technologies and tools, with a commitment to using problem-solving skills to create user-friendly, scalable web applications.

PROFESSIONAL EXPERIENCE

Digital Relationship Manager
EOS Globe Pvt. Ltd. | Nov 2024 – Present
Managing digital client interactions, resolving issues, and enhancing customer satisfaction through multi-channel communication.

BASIC ACADEMIC CREDENTIALS

Qualification	Board/University	Year	Percentage/ CGPA
B. E (ECE)	V.R.S College of Engineering & Technology Arasur.	2021-2024	7.28%
HSC (State board)	Govt Hr Sec School, Cuddalore.	2019-2020	60%
SSLC (State board)	Govt Hr Sec School, Cuddalore.	2017-2018	65%

TECHNICAL PROFILE

HTML, CSS, JavaScript.

PROJECTS

1. Affordable Emergency Communication System for Block Spot Region

- **Project Description:** Developed an emergency communication system tailored for remote and black spot regions using LoRa technology. The solution addressed significant communication challenges in areas with sparse network coverage and rugged landscapes, focusing on accessibility and reliability to ensure swift and effective emergency responses. This system enhances safety and resilience in remote areas, empowering communities with dependable emergency communication capabilities. **Technologies Used:** Embedded C, Arduino IDE.

RESPONSIBILITIES

- Contributed to the development and maintenance of responsive websites using HTML, CSS, JavaScript, and frameworks like React.
- Collaborated with design teams to transform UI/UX designs into interactive, user-friendly web pages.
- Conducted cross-browser testing and debugging to ensure consistent performance across various platforms and devices.
- Assisted senior developers in integrating REST APIs, enabling seamless data flow between front-end and backend systems.
- Utilized Git for version control, collaborating on code via GitHub repositories.
- Gained hands-on experience optimizing website speed and performance to enhance user experience.
- Supported team projects by participating in code reviews and discussions on best practices.
- Proactively learned new technologies and frameworks to continually improve development skills.

DECLARATION

I do hereby declare that the above information is true to the best of my knowledge.

Place: Chengalpattu,
Tamil Nadu.
