PROFILE

Detail-oriented and motivated Engineering Graduate (B.E. – Computer Science and Engineering) with hands-on 3 years of experience in Quality Assurance at Tenneco Automotive Pvt. Ltd. Skilled in process improvement, defect analysis, and documentation aligned with ISO standards. Possesses strong technical knowledge in C, Python, Java, and HTML, with additional exposure to Android App Development and Web Development. Certified in Zoho Creator (Deluge Language) and trained in Software Testing, Salesforce, and Database Management. Demonstrates excellent analytical, problem-solving, and teamwork abilities, with a keen interest in applying both technical and quality expertise to deliver reliable and efficient outcomes.

WORK EXPERIENCE

Quality Engineer Tenneco Automotive Pvt. Ltd.	2022 - 2025
- Monitored and ensured product quality standards throughout the production process, maintaining compliance with company and client requirements. - Conducted root cause analysis and implemented corrective actions to reduce defects and improve process efficiency. - Collaborated with production and design teams to ensure consistent product quality and process improvements. - Prepared quality inspection reports and maintained documentation as per ISO/TS standards. - Supported continuous improvement initiatives to enhance overall product performance and customer satisfaction.	

EDUCATION

Bachelor of Engineering (B.E.) Computer Science and Engineering	2017 - 2021 77 %
AVS Engineering College, Salem – Anna University	

PROJECTS

Driver Drowsiness Detection Using Facial Features and PERCLOS

- Developed a system to monitor driver alertness by analyzing facial landmarks and eye-blink patterns using PERCLOS (Percentage of Eye Closure). The project aimed to enhance road safety by detecting fatigue in real time and alerting the driver through warning signals.

CERTIFICATIONS & TRAININGS

- Certified in Zoho Creator** – Deluge Language: Developed a mini application using Zoho Creator, demonstrating practical knowledge in low-code development.
- Salesforce Online Training**: Gained foundational understanding of CRM concepts, cloud computing, and Salesforce ecosystem functionalities.
- Skill Development Training (AVS Engineering College)**: Completed training in Software Testing, Java, and Database Management, enhancing core programming and analytical skills.
- Python Workshop (Odugah Tech)**: Participated in a hands-on workshop covering Python fundamentals and real-time coding applications.

INTERNSHIPS

- Android App Development Internship (9 Days)**: Gained hands-on experience in mobile app design, UI/UX development, and basic functionality implementation. Received certification upon successful completion.
- Python Programming Internship**: Acquired practical knowledge in Python fundamentals, data handling, and basic automation concepts. Certified for completing the internship training program.

SKILLS

- Quality Inspection & Process Improvement
- Root Cause Analysis & Corrective Action Implementation
- Knowledge of 5S, Kaizen, and Lean Manufacturing Practices
- Quality Documentation & ISO/TS Compliance
- Production Support & Team Coordination
- Programming Languages: C, Python, Java, HTML
- Basic Knowledge of Android & Web Development
- Strong Analytical and Problem-Solving Skills
- Computer Proficiency & Data Handling (Excel, Reports, Documentation)
- Adaptability and Quick Learning in Technical Environments
