PROFILE

Motivated and reliable fresher with good communication skills and a strong interest in learning new things. Able to handle tasks carefully and work well with others. Looking forward to starting my career and contributing in a professional environment where I can learn, grow, and support team goals.

EDUCATION

Kings Engineering College, Affiliated to Anna University, Chennai <i>B.E-COMPUTER SCIENCE AND ENGINEERING, FIRST CLASS WITH DISTINCTION (81.86%)</i>	2020 – 2024
Avichi Higher Secondary School, Chennai <i>HIGHER SECONDARY SCHOOL (79%)</i>	2019 - 2020
Avichi Higher Secondary School, Chennai <i>SECONDARY SCHOOL LEAVING CERTIFICATE (88.8%)</i>	2017 - 2018

PROJECTS

BLOG WEBSITE

- I Designed and developed a blog website with a user-friendly interface.
- Created the front end using HTML and CSS, ensuring a responsive and visually appealing layout.
- Designed and developed a blog website with a user-friendly interface.
- Created the front end using HTML and CSS, ensuring a responsive and visually appealing layout.

PASSWORD SPRAY DETECTION

- By analysing patterns of login attempts, the method aims to distinguish password spraying from regular login behaviour, enhancing security measures against such malicious activities.
- I Developed a front-end login page for user credential input, ensuring a user-friendly and secure interface.
- Implemented database connectivity using SQL to store and manage user details efficiently.
- This project mainly focuses on enhancing security measures to detect and mitigate password spray attacks.

VOLUME CONTROL USING HAND GESTURES

- Developed a system to control volume through hand gestures.
- Utilized Python and the NumPy library to process and analyze gesture data.
- Implemented algorithms to detect and interpret finger movements, allowing the volume to increase or decrease based on the motion of the finger.
- Used Visual Studio Code (VS Code) as the development platform for coding and debugging.

TECHNICAL SKILLS

- Java
- SQL
- HTML
- CSS.

SOFT SKILLS

- Quick Learner
- Team Work
- Adaptability
- Time Management
- Reliability
- Leadership potential
- Positive Attitude

CERTIFICATION

- Typing Certificate(typing.com)
- Data Analytics
- AWS Workshop
- ChatGPT
- UI/UX Design

ACHIEVEMENTS

- **CERTIFICATE OF APPRECIATION** | Received a Certificate of Appreciation for serving as the Event Coordinator for TECHNEXUS 23, a national-level technical symposium held at Kings Engineering College on September 2023.
- **FIRST PLACE, MYSTIC TOUCH EVENT** | Awarded first place in the Mystic Touch event during the National Level Technical Symposium conducted by Chennai Institute of Technology, organized by the Department of AI & DS, May 2022.
- **NSS VOLUNTEER** | Participated in the voluntary blood donation camp organized by the NSS Program Officer in 2022 at Kings Engineering College.
