SUMMARY

Results-driven professional with experience at Reliance DC as a Computer Data Entry Operator and Software Tester. Proficient in databases and software testing, I excel in problem-solving and communication. Successfully recovered missing data and ensured software quality, contributing to enhanced operational efficiency and team collaboration.

SKILLS

- Databases
- Java
- Test Cases
- Software Testing
- Object-Oriented Programming
- Software Development
- Database Management
- Agile Methodologies
- Jira
- Computer Science
- Analytical Skills
- Teamwork
- Communication
- Problem Solving
- AI Implementation
- C Programming
- Data entry
- SAP administration
- SAP HANA management
- Data validation
- Pivot table creation

EXPERIENCE

Computer Data Entry Operator, Reliance DC, April 2025 - October 2025, Coimbatore

- Entered and updated data accurately in company databases.
- Maintained organized records and files for easy retrieval.
- Recovered missing data and resolved statistical inconsistencies by communicating with source authors.

Software Tester (Online), June 2024 - September 2024

- Conducted functional and regression testing for software applications to ensure quality and reliability.
- Supported quality assurance efforts by reviewing project specifications and designs.
- Communicated effectively with team members to ensure alignment on testing goals.

EDUCATION AND TRAINING

Bachelor of Engineering (BE), Mountzion College of Engineering and Technology, Pudukkottai, June 2024

- Developed problem-solving skills through algorithm design and implementation in C, Java, and AI.
- Learned software engineering principles, including object-oriented programming, data structures, and design patterns.
- Enhanced analytical skills by tackling complex engineering problems using C and C++ in real-world scenarios.

Diploma, Computer Science and Engineering, Government Polytechnic College, Aranthangi, April 2021

- Developed problem-solving skills through algorithm design and implementation in C, Java, and AI.
- Learned software engineering principles, including object-oriented programming, data structures, and design patterns.
- Enhanced analytical skills by tackling complex engineering problems using C and C++ in real-world scenarios.

CERTIFICATIONS

- Advanced Python Bootcamp (07/01/23) – Developed skills in object-oriented design and Python programming for web development and data analysis.
- International Conference on Recent Trends in Engineering and Technology (04/01/24) – Certificate of Contribution as a Speaker at the event.

ACCOMPLISHMENTS

Final Year Project: Empower Tetraplegia – Deep Learning Fusion for Facial and Vocal Computer Control. Designed and implemented a deep learning algorithm that significantly improved the responsiveness of facial and vocal control systems for tetraplegic users.

HOBBIES AND INTERESTS

- Cooking
- Traveling
- Coding
- Music
- Puzzle solving
- Reading
- Photography
- Gaming
- Fitness
