

Supriya D

Software Developer & Salesforce Developer

Chennai, India

☎ +91 9940483141 | ✉ supriya26022004@gmail.com | [LinkedIn](#)

Professional Summary

Passionate and detail-oriented Salesforce Administrator/Developer with hands-on experience in configuring, customizing, and supporting Salesforce applications. Skilled in Flows, Validation Rules, Security Model, Automation, Reports & Dashboards, and Data Management using SOQL and Data Loader. Strong technical foundation with knowledge of Python, SQL, HTML, and CSS, backed by an Engineering degree in Electronics and Communication. Quick learner with excellent problem-solving abilities, eager to build efficient CRM solutions and grow into a Salesforce Consultant.

Experience

Cloud Champ Technologies

Chennai

Salesforce Administrator

09/2025 - 11/2025

- Managed user accounts, profiles, roles, and permission sets to maintain secure access control.
- Created and customized objects, fields, record types, and page layouts based on business requirements.
- Designed validation rules and formula fields to ensure accurate data entry and calculations.
- Implemented workflow rules, process builder, and flows for business process automation.
- Configured approval processes for record-level approvals and notifications.
- Developed and maintained reports and dashboards for sales performance and management insights.
- Developed a Movie Ticket Booking App using Salesforce custom objects, relationships, and automation tools (Flow, Validation Rules).
- Used Data Import Wizard and Data Loader for bulk data import/export operations.
- Set up email templates, auto-response rules, and assignment rules for customer communication.
- Monitored system performance, login history, and setup audit trail for security compliance.
- Provided end-user training and support for Salesforce functionality.
- Performed daily administrative tasks like user creation, password reset, data import/export, and record maintenance.

Internships

Salesforce Administrator Intern

Chennai

Cloud Champ Technologies

09/2025 - 11/2025

During my Salesforce Admin internship at Cloud Champ Technologies, I gained hands-on experience in managing users, profiles, roles, and permissions, as well as creating Flows, Validation Rules, Reports, and Dashboards to automate and monitor business processes. I also worked on developing a Movie Ticket Booking Application in Salesforce, where I applied my knowledge of objects, fields, and data relationships to build a practical CRM-based solution. This internship strengthened my understanding of Salesforce administration, data management, and process automation.
