SUMMARY

I am an experienced Manual Test Engineer with 2 years of expertise in software testing, particularly in developing automated test scripts using Selenium Web-Driver. I have a solid understanding of various testing methodologies and tools, including JIRA for defect tracking and GIT for version control. My strong background in Agile processes and commitment to quality has enabled me to effectively contribute to software development cycles

EXPERIENCE

03/2023 - 04/2025

Chennai

●

Associate Software Tester

MVC Digital

A company specializing in digital payment solutions

- Worked as an Associate Software Tester
- Involved in analysis and effort estimation for change requests
- Reporting bugs to software developers using bug tracking tools
- Hands on experience in various levels of testing including Sanity, Functional, Regression, Re-testing, and UI testing
- Experienced in Agile/Scrum methodologies and procedures

EDUCATION

06/2017 - 04/2020

Tirupattur

●

MCA - Master of Computer Application

Thiruvalluvar University

06/2014 - 04/2017

Yelagiri

●

BCA - Bachlor of Computer Application

Thiruvalluvar University

KEY ACHIEVEMENTS

☆

Automation Framework Design and Implementation

Successfully designed and implemented automation frameworks using Selenium Web-Driver, significantly improving the testing efficiency

SKILLS

Agile	Automated Testing	Core Java	Cucumber	End To End Testing	Git	GitHub	Java	JIRA
Manual Testing	Postman	REST	Scrum	Selenium	UI Testing	Gateway		

PROJECTS

LMS Application Testing

Testing and validation for an e-learning platform

- Tested user registration, course enrolment, video playback, and payment gateway integration
- Validated RESTful APIs for user authentication, course management, and payment processing using Postman
- Performed end-to-end testing of user workflows for roles including Student, Instructor, and Admin
- Ensured user data privacy and secured transactions through security testing
- Conducted regression and User Acceptance Testing to confirm that changes met business requirements
- Reported and tracked defects using JIRA
