SUMMARY

I have completed my Master's in Mathematics, which has helped me develop strong analytical and problem-solving skills. I am a dedicated and detail-oriented person who enjoys learning new things and applying my knowledge in practical situations. I am eager to start my career and contribute effectively to the growth of the organization.

EDUCATION

Sri Paramakalyani College, Manonmaniam Sundaranar University

MSc in Mathematics – CGPA:8.0

Alwarkurichi

2023 – 2025

Sri Paramakalyani College, Manonmaniam Sundarnar University

BSc in Mathematics – CGPA:8.5

Alwarkurichi

2020 – 2023

SKILLS

Programming Language: Python

Data Visualization: Tableau

Version Control: Git and GitHub

Mathematics: Statistical Modeling, Graph Theory, Logical Reasoning

Tools: Jupyter Notebook

Microsoft Office

Soft Skills: Time Management, Documentation, Team Collaboration, Communication

PROJECTS

Health Care Diabetes

Tableau

Analyzed and visualized diabetes data using Tableau to identify key trends and patterns. Created interactive dashboards that supported early detection and improved data-driven decision-making in patient monitoring.

Forbes Richest People Analysis

Python,Pandas, Matplotlib, Seaborn

- Collected and analyzed data on 2600+ global billionaires using Python libraries.
- Visualized trends in wealth distribution by industry, age, and region.

Prime Cordial Labelling Of Graphs

Mathematical Research

- As part of my Master's program in Mathematics, I completed a research project on Prime Cordial Labelling of Graphs, a specialized topic in graph theory. The study focused on assigning labels to the vertices and edges of different graph structures using prime numbers while maintaining specific mathematical conditions for cordiality.
- I analyzed more than 15 types of graphs, identified patterns, and established conditions under which prime cordial labeling is possible.
- This project helped me strengthen my analytical thinking, logical reasoning, and research skills while contributing to ongoing studies in mathematical graph theory.

CERTIFICATIONS

Data Science Visualization and Analysis
IITM PRAVARTAK TECHNOLOGIES FOUNDATION

June 2024 – Sep 2024

LANGUAGE

English (Fluent)

Tamil (Native)
