My interest is using effective communication to bridge cultural divides and promote understanding. This enthusiasm is fueled by my academic background, which includes a Masters in French and a Diploma in French Language, a BBA(IB), and a Diploma in Banking and Insurance. These degrees have given me a broad knowledge base and the capacity to communicate difficult concepts across academic fields. I can communicate and exchange information with ease because to my four completed levels of fluency in French. I work best in environments where I can use my communication abilities to establish trust and foster productive conversation.
