- **Secondary School Certificate (SSC)**
Prathibha Vidhyalaya, Tirupati | Apr 2017
CGPA: 8.5

PROFESSIONAL EXPERIENCE

Bench sales recruiter

Conflux systems LLC, Hyderabad | Oct 2024 – Nov 2025

Role Overview: Responsible for placing consultants who are on the bench by connecting them with new project opportunities. Works closely with clients to understand their needs and markets available talent.

- Marketed bench consultants (US Citizens, GC, H1B, OPT, CPT) across various technologies (Java, DevOps, etc.) to implementation partners, direct clients, and preferred vendors.
- Built strong relationships with Tier 1 vendors and implementation partners to increase placement rate and visibility of consultants.
- Experienced in using job boards and portals like Dice, Monster, CareerBuilder, LinkedIn, and Indeed to source client requirements and submit matching bench consultants.
- Negotiated rates with vendors and clients while ensuring best placement opportunities for consultants.
- Coordinated with consultants daily to understand their skills, preferences, and availability.

- Maintained a tracker of consultant submissions, interviews, and placements for reporting and follow-up
- Ensured proper documentation and compliance (e.g., H1B paperwork, E-Verify, etc.) for all placements.

ACADEMIC PROJECTS

Smart Door System Using Arduino

- Using the doors can be easily controlled by those with access and physical challenged people can easily open and lock the doors with their fingers without needing assistance from anyone else.
- Designed and implemented a Smart Door Lock System using Arduino Uno for secure and automated access control.
- Integrated RFID / Password / Fingerprint / Bluetooth modules (whichever you used) for multi-level authentication.
- Utilized sensors (IR/ultrasonic) to detect user presence and trigger the door system.
- Displayed real-time system status and access results using a 16x2 LCD display and LED indicators.
- Programmed in C/C++ using Arduino IDE, applying concepts of embedded systems and IoT.
- Implemented buzzer alerts and LED feedback for unauthorized access attempts.
- Enabled remote monitoring via Wi-Fi (ESP8266) or mobile control.

CERTIFICATIONS

- **C Programming – Code Tantra**
Certificate on C programming by Code Tantra from 01-09-2021 to 31-12-2022
