Experience

- Nxtwave Disruptive Technologies** 2022 - 2024
Full stack developer course
Develop front-end interfaces using HTML, CSS, JavaScript, and frameworks like React, Angular, or Vue. Build and maintain server-side logic with Node.js, Python (Django/Flask), Java, or PHP. Design and manage databases (MySQL, MongoDB, PostgreSQL, etc.). Work with APIs (REST or GraphQL) to connect front-end and back-end. Ensure application performance, security, and scalability. Use version control tools like Git and GitHub. Collaborate with designers, testers, and other developers. Deploy applications to cloud platforms (AWS, Azure, or Firebase).
- Evolve IT solution** 18-08-2025 - 18-09-2025
Full stack developement in Python
During the internship period, I worked in the capacity of an Intern in the Full stack Developement in Python. I has shown a strong understanding of programming concepts, effective problem-solving skills, and the ability to adapt quickly to our development environment.
