## INTERNSHIP

KYUNGPOOK NATIONAL  
UNIVERSITY-SOUTH  
KOREA

DEC 2022 - JAN 2023

Completed a two week internship on Machine Learning where I had the opportunity to gain knowledge about Algorithm for AI Tools.

GATE WAY SOFTWARE SOLUTION-COIMBATORE

JUN 2023 - JUL 2023

Completed a three week internship on where I had the Cyber Security opportunity to gain knowledge about Ethical Hacking.

---

## PROJECTS

### Diabetics prediction

Diabetics prediction using machine learning algorithms involves analyzing patient data to identify patterns and predict the likelihood of developing diabetes.

### Restarunt Menu Card Webpage

A restaurant menu card webpage is a digital platform that showcases the food and drink offerings of a restaurant, including descriptions, prices, and categories, often enhanced with images and interactive elements for easy navigation.

---

## SKILLS

Java

HTML

JavaScript

Figma

CSS

Python

---

## CERTIFICATIONS

**L&T**: Fundamental of Data Analytics.

**Coursera** : Front End Development.

**Coursera** : Supervised Algorithm.

---

I declare that the information provided above is true and accurate to the best of my knowledge.
