COURSES

5G Communication Technology

5G communication Technology This course provides a comprehensive introduction to 5G technology, covering the evolution of mobile communication systems from 1G to 5G. It explores the fundamental concepts of 5G networks, including new radio (NR) technology, massive MIMO, millimeter-wave frequencies, and ultra-low latency communication.

DECLARATION

I hereby declared that all the details mentioned above are in accordance with the truth and facts as per my knowledge and I hold the responsibility for the correctness of the above mentioned particulars
