SUMMARY

Enthusiastic and goal-oriented B.Tech student in Artificial Intelligence and Data Science with strong foundations in Machine Learning, Data Visualization (Power BI, Matplotlib), and analytical problem-solving. Experienced in applying AI concepts through hands-on projects using Python, TensorFlow, and scikit-learn on real-world datasets. Quick to adapt and proactive, with a passion for building innovative, data-driven solutions that deliver measurable impact.

EDUCATION

CK College of Engineering and Technology **2022 - Present**

Bachelor of Technology in Artificial Intelligence and Data Science

CGPA: 9.09/10 (till 6th semester)

HSC **2021 - 2022**

Lakshmi Chordia Memorial Matriculation Hr. Sec. School

Percentage: 89.67%

SSLC **2019 - 2020**

Lakshmi Chordia Memorial Matriculation Hr. Sec. School

Percentage: 90%

SKILLS

Technical Skills:

- **Programming Languages:** Python, Java, SQL, HTML/CSS
 - **Machine Learning & Data Analysis:** Scikit-learn, NumPy, Pandas, TensorFlow, Keras, OpenCV
 - **Data Visualization & BI:** Power BI, Matplotlib, Seaborn
 - **Tools & Frameworks:** Streamlit, UiPath, Kaggle, MS Excel
-

LANGUAGES

- **English** – A2
- **Hindi** – B1(Intermediate)
- **Kannada** – Native
- **Tamil** - (Fluent)

PROJECT WORK

Blood Group Detection Using Fingerprint

JAN - FEB 2025

- Developed an AI-powered system to determine blood groups from fingerprint images, integrating **CNNs**, **OpenCV**, and **TensorFlow** for image processing and classification.
- Built a complete ML pipeline using **Python**, **NumPy**, and **Pandas**, improving prediction efficiency in a biometric healthcare context.

Image Recognition for Plant Species Classification

April - May 2024

- Designed and implemented a deep learning model using **TensorFlow/Keras** to classify plant species from leaf images.
- Applied image preprocessing and augmentation techniques with **OpenCV** to improve model generalization.

INTERNSHIP EXPERIENCE

Machine learning Intern - BYTEUPRISE

5 Sep - 5 Oct 2024

- Developed a movie rating prediction model using linear regression on multi-feature metadata; conducted feature selection and performance evaluation.
- Built a **hand gesture recognition system using CNN** for real-time gesture-driven control; achieved **99.5% test accuracy**.

AI & Prompt Engineering Intern - VAULTOFCODES

5 Sep - 20 Oct 2024

- Developed an **AI-powered Story Generator Bot** using **Streamlit** and **LLMs**, enabling dynamic story creation based on user inputs and custom prompt engineering techniques.
- Designed and iterated custom AI prompts to enhance chatbot response relevance and accuracy in multi-turn conversations.

AI/ML Intern - INTERNPE

30 Sep - 27 Oct 2024

- Developed a **Diabetes Prediction Model** using classification algorithms with **75% accuracy**.
- Implemented an **IPL Match Winning Predictor** using match data; attained **64% accuracy**.
- Created a **Breast Cancer Detection Model** with **96% accuracy**, applying supervised learning on medical datasets.

CERTIFICATIONS

- **NPTEL** – Joy of Computing Using Python – Scored **72%**
- **NPTEL** – Python for Data Science – Scored **56%**
- **NPTEL** – Data Analytics with Python – Scored **64%**
- **Accenture (Future Learn)** – Digital Skills: Artificial Intelligence – Scored **86%**
- **PALS Tinkathon, IIT Madras** – Participant (Certificate Earned)
- **GEN AI Academy by Google Cloud & H2S** – Completion Certificate
- **Tata Forage** – Gen AI Powered Data Analytics Job Simulation – Certificate Earned.
- **GUVI HCL** – ChatGPT for Everyone – Completion Certificate.
