EDUCATION

Bachelor's degree
Computer science and
engineering
Park college of technology
2020

TECHNICAL SKILLS

- Python, Java, and HTML
- MS-Office and
- PhotoShop
- Windows and Linux

SKILLS

- Adaptability
- Team collaboration
- Active listening

PROFILE

To secure a challenging role in the IT industry where I can apply my technical and problem-solving skills to contribute meaningfully to organizational growth, while thriving in a collaborative and growth-oriented environment

WORK EXPERIENCE

Siemens Technology and Services Pvt.Ltd. March 2025 - Present
BMS operator

- Monitor & Operate Building Management System (BMS): Continuously supervise HVAC, lighting, fire safety, security, and electrical systems via the BMS platform to ensure efficient and reliable operations. Safety & Regulatory Compliance:

Sheyon Enterprises Jan 2024 - Feb 2025
Junior Engineer (TATA BSNL)

- Hands-on experience in installing, configuring, and maintaining 4G/5G network infrastructure, including antennas, base stations, and routers, ensuring optimal signal strength and connectivity across service areas.
- in troubleshooting network issues, performing site surveys, and collaborating with engineering teams to support seamless rollout and upgrades of telecom systems

PROJECTS

Prediction of Stock Market using Machine Learning

- This project aims to address a critical need faced by a company's Business Intelligence (BI) team — the ability to predict the success or failure of a product.
- It supports strategic decision-making by analyzing data patterns related to new product launches or modifications to existing product features.
- By leveraging machine learning algorithms, the system enhances forecasting accuracy and minimizes risk in product development and marketing strategies.

DECLARATION

I hereby declare that the information provided above is true and correct to the best of my knowledge and belief. I take full responsibility for the accuracy of the particulars mentioned
