PROJECTS

Unified Urban Project Coordination System	January 2025– June 2025
• Create a single platform to manage city projects together. • Find project clashes automatically before work starts. • Visualized dropout trends using basic charts. • Track project progress with alerts and role-based access.	
Online Course Material Management System	June 2024– December 2024
• Enabled the addition, deletion, and update of course materials for students efficiently. • Designed and implemented a secure platform for managing and distributing course materials. • Developed role-based access control for faculty, students, and administrators. • Optimized database queries, reducing load times and improving system efficiency.
