- Conduct failure analysis on PCBs after SMT, ensuring functionality and quality through ICT, B Scan programming, FCT, and FST tests.
- Generate reports with corrective actions and collaborate with cross-functional teams to prevent recurring issues.
- Analyzed and addressed failures identified in testing, implementing rework solutions to resolve issues and maintain product quality.
- Identify,analyze and debug the root causes of PCBA failures and provide solutions.
- Handled PCB failure boards, performing accurate assembly and disassembly to support failure analysis and troubleshooting
- Maintain and follow the safety measures and 5S, ESD requirement in the working areas.

SKILLS

- Basic knowledge of Circuit Components.
 - PCB Handling.
 - Handling X-Ray Machine to Check PCBA Solderability.
 - Basic knowledge in Excel.
 - Multimeter handling.
 - Adaptability and willingness to learn.
 - Time management and multitasking.
-

PROJECTS

ENERGY EFFICIENCY IN WIRELESS SENSOR NETWORKS USING DUAL CLUSTER.

Wireless sensor network (WSN) requires robust and energy efficient communication protocols to minimize the energy consumption as much as possible. However the lifetime of the sensor network reduces due to the adverse impacts caused by radio irregularity and fading in multi-hop WSN.

LEADERSHIP & VOLUNTEER EXPERIENCE

EVENT ORGANIZER – VOTER AWARENESS RALLY

SACS MAVMM ENGINEERING COLLEGE | MARCH, 2024 - Organized and led a voter awareness rally with over 1,000 students in attendance. - Coordinated with key officials, including the Additional Collector from the Revenue Department and the Deputy Commissioner of Police (DCP), to ensure event success. - Managed logistics, promotion, and engagement, raising awareness about the importance of voting among youth.
