SUMMARY

Detail-oriented and tech-savvy graduate with a strong foundation in back-end operations, data processing, and customer support through chat and email channels. Skilled in handling high volumes of queries with accuracy and professionalism while maintaining excellent written communication. Eager to contribute to KPO processes by delivering efficient, error-free service with a focus on client satisfaction, process improvement, and continuous learning.

EDUCATION

Bsc(computer science), University of Madras
CGPA-8.3

08/2022 – 05/2025
Chennai, India

SKILLS

Programming Language

Python, Java

Database

SQL, PL/SQL

Microsoft Office

Word, Excel, Powerpoint

Networking

Computer Network

Version Control & Deployment

Git & GitHub

Software & Tools Cloud & DevOps

Strong understanding of AWS (EC2, S3, IAM), Cloud Deployment Concepts.

Data Analysis & Research

Data collection, cleaning, trend analysis, report preparation, internet research, data visualization (charts, graphs), accurate data entry.

Report Preparation & Documentation

Creating clear reports, summarizing data insights, drafting professional documents, formatting reports in MS Word and Excel, preparing presentations in PowerPoint.

PROJECTS

CAR SHOWROOM MANAGEMENT SYSTEM, Car Showroom(Front-end Project), Car Showroom - Simple Overview

This is a web application where users can browse different cars, see their images, names, types, and prices. It's built using: React for the user interface JavaScript for functionality Tailwind CSS for styling.

Languages Used:

- JavaScript (JSX)
- HTML
- CSS
- Frameworks & Tools
- React.js
- Tailwind CSS
- Vite

Early Prediction of Mental Illness Using Data Mining

- Developed a predictive model to detect early signs of mental illness using machine learning techniques.
- Used classification algorithms like Random Forest and SVM on datasets such as PHQ-9 survey and social media data.

- Applied data preprocessing, feature engineering, and model evaluation (accuracy, precision, recall).

Tools used:

Python

Pandas

Scikit-learn

Jupyter Notebook

STRENGTHS

- **Strong Analytical Skills**
- **Attention to Detail**
- **Quick Learner**
- **Good Communication Skills**
- **Problem-Solving Ability**

CERTIFICATES

Mathematical Reasoning for Competitive Exams

Grade-'A'

Diploma in Computer Application

3 Months course

Grade-'A'

Networking 101

Beginner's Guide to Network Essentials

AWARDS

Debugging

Secured Second Prize

Language Used: Python

Web-designing

Secured Third Prize
