2017 – 2018 | Madurai
Percentage-86%

LANGUAGES

Tamil | English

SKILLS

Front-end – HTML5,CSS5,JavaScript(ES7)
Back-end – Python3.13, SQL, Machine Learning
Database – MySQL8.0
Version Control System – Git, GitHub2.51
Developer Tools – Visual Studio Code, Jupyter Notebook, Anaconda, Spyder, Excel, Google Cloud Platform
Libraries/Frameworks – Django5.2.4, Streamlit1.47, flutter3.35
Server – XAMPP 8.2.12

PROJECTS

Google Play Store Ratings-Based App Success Prediction

Analyzed Google Play Store datasets to identify key success factors of mobile apps. Built a machine learning model to predict app performance based on ratings and attributes. Designed an interactive dashboard using Python (Flask), HTML, CSS, and JavaScript. Provided insights to help developers improve app visibility and user engagement.

INTERNSHIP

WEB DESIGNING - Portfolio

Tools: HTML ,CSS ,JavaScript ,VS Code, Browser (Chrome)
Techniques: Responsive Web Design, CSS Flexbox & Grid, DOM Manipulation, Form Handling & Validation, Smooth Animations & Transitions, Media Queries

FULL STACK DEVELOPMENT - College

Management System
Tools: Django, Python, HTML, CSS, JavaScript, SQLite, VS Code, Font Awesome
Techniques: MVT Architecture, CRUD Operations, Django ORM, Form Handling & Validation, Authentication & Session Management, Admin Dashboard with Data Aggregation

PROGRAMMING IN C

Developed and tested basic programs using C language.
Practiced fundamental concepts like loops, arrays, and functions.

CERTIFICATES

Full stack development
