## EXPERIENCE

- Full Stack front end Developer intern - Pantech e-Learning pvt-Ltd.** Jun 2023 - Aug2023

where I focused on learning and applying fundamental web development technologies such as HTML, CSS, and JavaScript.

During the internship, I worked on creating simple and responsive web pages using HTML for structure, CSS for styling, and JavaScript for interactive features.

- Java Developer Intern – Anudip Foundation** Dec 2024 - Feb 2025

Gained hands-on experience in core Java, focusing on MVC architecture, JDBC, Swing, and exception handling. Worked on real-world applications, improving coding efficiency and database management (MySQL). Collaborated in a team to develop structured, scalable, and user-friendly Java applications.

## PROJECT

**I Developed a Criminal Record Management System (CRMS)** using Java (Swing), MySQL, and MVC architecture. Designed an interactive UI for managing criminal records, court cases, arrests, and evidence. Implemented DAO layer, custom exception handling, and utility functions for efficient database operations and secure data management.

**I developed a House Rent Web Application using the MERN stack** (MongoDB, Express.js, React.js, Node.js). The application allows property owners to list rentals and tenants to search, filter, and book properties easily. It features secure authentication, a user-friendly interface, and a seamless booking system, ensuring a smooth rental experience.
