Internships and Project

Academic Project

WHEATHER FORCASTING SYSTEM

mar 2024–apr 2024 | Thiruvallur, India

- Developed a Weather Forecasting System to predict weather conditions using real-time data.
- Integrated API services (like **Open Weather Map** or similar) to fetch live weather updates.
- Implemented features such as **temperature, humidity, wind speed, and weather condition display**.
- Built a user-friendly interface using [e.g., **HTML, JavaScript, C++**, etc.].
- Applied data handling and processing techniques for accurate predictions and user queries.

Technologies Used: [Example: **HTML, JavaScript, C++**]

FURNITURE MANAGEMENT SYSTEM

jan 2024–mar 2024, Thiruvallur, India

- Designed and developed a Furniture Management System to manage furniture inventory, customer orders, and billing.
- Created **backend APIs** using **Node.js** and stored data securely using **MongoDB**.
- Built a clean and responsive frontend using **HTML and CSS**.
- Implemented CRUD operations (**Create, Read, Update, Delete**) for product and customer data management.
- Ensured data validation, error handling, and secure routing.
- Focused on user-friendly design, easy navigation, and real-time updates.

Technologies Used:

- Backend: Node.js, Express.js
- Database: MongoDB
- Frontend: HTML, CSS

Intern

NETWORKGEEK- BROADCASTING IDEAS

Oct 2023–Nov 2023 | Thiruvallur, India

- Attended sessions on Basic Computer Networking covering key topics like IP addressing, subnetting, routers, switches, and protocols (**TCP/IP, HTTP, FTP**).
- Learned about network topologies, **LAN/WAN concepts, and network troubleshooting techniques**.
- Gained insights into network security fundamentals and real-world network setup practices.
- Strengthened foundational knowledge useful for **IT support, system admin, and networking roles**.

Volunteer
