PROFILE SUMMARY

Dedicated Network Engineer with strong knowledge of routing, switching, TCP/IP, and network troubleshooting. Skilled in configuring Cisco devices, managing LAN/WAN setups, and ensuring smooth network performance.

INTERNSHIP

UI & UX

I did my internship for UI & UX designer in kevel guru at Madurai

PROJECTS

Stock Market Predication

Stock market prediction using machine learning provides valuable insights into price patterns and trends. Although absolute accuracy is not possible, the project helps in understanding market behavior, data science techniques, and time-series forecasting.

Flood Monitoring and Early Warning

Early Warning system are put in place to analyse and identity potential weather and climate related risks and hazards.

Food Delivery App

Designed a complete Food Delivery Mobile App using Figma including user research, user flow, wireframes, high-fidelity UI screens, and an interactive prototype. Implemented modern UI elements, smooth navigation, and intuitive UX to create a fast and enjoyable food-ordering experience.
