MICROSOFT AI MS COPILOT

- Microsoft Copilot is an AI-powered assistant integrated into Microsoft 365 applications such as Word, Excel, PowerPoint, Outlook, and Teams. It uses advanced natural language processing to help users generate content, analyze data, summarize information, write emails, create presentations, and more—just by typing simple prompts in natural language.
 - Copilot combines the power of AI (like ChatGPT) with the user's existing work data (files, emails, calendars, chats)—based on permission—to provide real-time, relevant, and personalized suggestions. It helps increase productivity, save time, and improve the quality of work.
