

NESAMATHI E

Aspiring Data Scientist /AI Enthusiast

9360682657 • nesamathi2003@gmail.com

• <https://www.linkedin.com/in/nesamathi-e-042209376> GitHub:<https://github.com/nesamathi/mL> • Harur, Dharmapuri

Summary

Aspiring Data Analytics and AI with a strong academic background in B.Sc Mathematics and currently pursuing MCA . Completed an Artificial Intelligence course and gained practical industry exposure through Deloitte Data Analytics Job Simulation and Tata GenAI & Data Analytics Job Simulation. Possesses strong analytical thinking and a keen interest in applying data analytics and AI techniques to solve real-world business problems.

Education

Sri Vijayya Vidhyalaya Matric .Hr.sec.school 12th	Dharmapuri 06/2020 - 04/2021
Sri Vidya mandir arts and science college B.Sc in Mathematics	Krishnagiri 08/2021 - 04/2024
Avs arts and science college MCA	Salem 09/2024 - 03/2026

Experience

Optimus Technologies Web Development Intern Web Development Internship - Completed hands-on training on fundamental web development concepts - Designed basic website layouts and implemented interactivity using HTML, CSS and JavaScript	Salem 09/2024 - 10/2024
Vk software solution UI/UX Design Intern UI/UX Design Internship - Learned basic UI/UX concepts, simple wireframing, and Figma basics - Designed small sample screens and improved understanding of layouts and usability	Salem 05/2025 - 06/2025
Deloitte Virtual Experience Deloitte Australia Data Analytics Job Simulation - Completed a Deloitte job simulation involving data analysis and forensic technology - Created a data dashboard using Tableau - Used Excel to classify data and draw business conclusions	Remote 12/2025 - 12/2025

Experience

Tata

Remote

Virtual Experience

12/2025 - 2026

Tata Group Data Analytics Job Simulation

- Completed a job simulation involving AI-powered data analytics and strategy development for the Financial Services team at Tata iQ
- Conducted exploratory data analysis (EDA) using GenAI tools to assess data

Languages

Tamil Native ●●●●●

English Proficient ●●●●●

Skills

Languages: Python , SQL , HTML , CSS

Data analytics: Data cleaning , Data preprocessing, Data modeling ,Statistical Analysis

AI/ML : Algorithms , Model training & Evaluations ,NLP , Computer vision ,Feature Engineering, Time Series

Data visualization: Power BI, Tableau, Matplotlib

Tools: Microsoft Excel, Jupyter Notebook, GitHub

Courses

Artificial Intelligence — 3-month Artificial Intelligence (AI) course under the TN Skills program, organized by Cultus Education

Projects

Stock Market Data Analysis

Bengaluru

05/2024 - 06/2024

Analyzed stock market trends to provide insights into price movements

- Analyzed historical stock price data (Open, Close, High, Low) using Python
- Created simple visualizations using Matplotlib to understand price trends over time

Crop yield prediction using ML

08/2025 - 09/2025

Mini-project focused on crop yield prediction using machine learning

- Created a model to predict crop yield using rainfall and temperature data
- Displayed results with graph visualization
- Uploaded a complete project on GitHub

Gold rate prediction using ML

08/2025 - 09/2025

Mini-project that predicts gold rates using machine learning techniques

- Developed a model to predict gold price, low, and high values based on input date
- Visualized results using Matplotlib graphs in Google Colab
- Uploaded the complete project on GitHub for sharing and version control

Advanced Time Series Forecasting DL:LSTM Optimization

09/2025 - 10/2025

Advanced project focused on time series forecasting and model optimization

- Built an LSTM model to predict time-series data and visualized the results using graphs for better understanding
- Used simple explainability methods (like SHAP plots) to show which features impact the predictions
