PROFESSIONAL SUMMARY

Motivated and dedicated fresher seeking an opportunity in Non-Technical Support role to utilize my communication skills, positive attitude, and willingness to learn for the growth of the organization and also having programming knowledge in Core Java for the entry level development.

EDUCATION

GOVERNMENT COLLEGE OF ENGINEERING, TIRUNELVELI Bachelor of Engineering in Electronics and Communication Engineering CGPA: 7.41/10	2021-2025
VALLALAR MATRICULATION HIGHER SECONDARY SCHOOL Percentage: 91.8/100	2019-2021
KANNAN MATRICULATION SCHOOL Percentage: 90.6/100	2009-2019

SKILLS

- MS Office (Word, Excel, PowerPoint).
- Core Java.
- Documentation & Filling.
- Attendance & Record Management.
- Communication.
- Time Management.

INTERNSHIP

EMBEDDED SYSTEMS WITH ARTIFICIAL INTELLIGENCE NSIC Chennai Software: Arduino IDE. Hardware: ESP32 Microcontroller, Sensors, LCD.	August-2024
• Embedded systems are specialized computing devices designed to perform specific tasks within larger systems. • Embedded systems consist of both hardware components and software that are tightly integrated to achieve their intended purpose.	

UNIVERSITY PROJECT

SMART PROXIMITY ALERT SYSTEM TO PREVENT FALLS INTO OPEN DRAINAGE PITS Software: Arduino IDE. Hardware: Arduino, Ultrasonic and IR sensor, Servo motor, LCD etc...	May-2025
• Our project is an IoT-based smart monitoring system using Arduino, ultrasonic/IR sensors and servomotors. • It displays data on an LCD and alerts authorities through buzzers. Servo motors automate pit covers, while alarms and lights handle emergencies. • This enhances drainage safety, efficiency and maintenance.	

LANGUAGES

- English.
- Tamil.

CERTIFICATION

- National Service Scheme (NSS).
