- English: Speak and write
- Tamil: Speak and write

Responsibilities 2017 - 2025
Senior Content Developer

- As a Content Developer, I am responsible for creating, managing, and updating content using CMS for websites. This includes ensuring that all content is well-organized, relevant, and properly formatted across various pages, including product descriptions, solution overviews, customer stories, "What Is" pages, and cybersecurity content.
- Once updates are made, I ensure that the pages are reviewed internally for quality and accuracy before transitioning the task to the client for final approval.
