SUMMARY

Highly motivated software tester with a strong foundation in developing and executing comprehensive test plans and test cases. Skilled in collaborating with developers to identify and resolve software issues, creating and maintaining automated test scripts, and reporting and tracking software defects. Experienced in identifying and resolving critical defects, implementing automated testing frameworks, and mentoring junior testers. I aim to leverage my skills and passion for software testing to contribute to a dynamic team and ensure the delivery of high-quality software products

PROFESSIONAL EXPERIENCE:

Sales Queen Software Solutions

May 2024 - October 2024

Software Testing

- Conduct automated and manual tests to confirm software meets quality standards.
- Ensure software developed by engineers is functional and fit for purpose.
- Identify, report, and track any bugs or issues found in the product.
- Collaborate with development teams to resolve issues efficiently.
- Verify the product is ready for deployment to end users, ensuring a smooth user experience
- Fast and repeatable testing that includes unit, integration, and end-to-end tests, helping to catch issues early in development.
- Human testers check user experience and UI to detect unexpected or visual issues, using exploratory, ad-hoc, and user acceptance testing (UAT).
- Planning specific scenarios to thoroughly test software functionality.
- Reporting and tracking issues for developers to address.
- Re-testing to confirm bug fixes don't impact other parts of the software.
- Ensuring all critical issues are resolved before release.

Inmakes Infotech Private Limited

November 2022 - March 2023

Junior Software Tester

- Proficiently employed BDD framework with Cucumber and TDD framework with Junit, ensuring thorough test coverage.
- Demonstrated mastery in Core Java, specializing in testing applications within the Ecommerce and Food Order domains
- Applied knowledge of essential tools: Jira, Jenkins, Maven, and GIT for streamlined development processes.
- Expertly crafted test scenarios, data, and feature files, showcasing meticulous attention to detail. Developed precise step definitions in Cucumber using Selenium for efficient and reliable test automation.
- Applied Appium for comprehensive mobile testing, ensuring seamless functionality across platforms
- Demonstrated proficiency in SQL, contributing to effective and reliable database testing.

Semantic Soft Solutions, India,

December 2016 – April 2017

M.C.A Project Internship

Semantic Link Network Based Model Organization and Multimedia

- Led project for precise semantic relatedness measurement of Flickr images.
- Implemented crucial modules in Semantic Link Network model for association relation measurement

- Conducted experiments with 100 thousand Flickr images to validate model effectiveness.
- Showcased coding proficiency in Java for overall technology stack.
- Designed user interface using Java Swings, managing backend with SQLite for efficient data handling.

PROJECT

1. Manual Testing

Project: Scent Arts

Description: Web Based (E-Commerce Platform)

Role: Led test strategy, crafted user stories, and executed thorough manual testing to ensure seamless customer experience

Bug Tracking : Identified and reported issues using Jira.

Documentation: Maintained Requirement Traceability Matrix, Bug Report Sheet, and Daily Status Report.

Tools: Jira

2. Functional Automation Testing

Project: Bistro Bites

Description : Web based (E-Commerce Platform application)

Role: Created automated test scripts with Selenium and Cucumber, analyzed results, and maintained test reports using JVMReports.

Defect Management : Tracked and managed bugs throughout the life cycle.

Documentation: Maintained Requirement Traceability Matrix, Bug Report Sheet, and Daily Status Report.

Tools: Selenium, Cucumber BDD, JUnit, TestNG, Maven

Framework: Cucumber

EDUCATION:

Annamalai University, Chidambaram

- Bachelor of Science in Computer Science (BSc), GPA: 7.36/10.0
- Master of Computer Application (MCA), Graduated First Class,

May 2012

May 2017

SKILLS & COMPETENCIES

- Manual Testing, Functional Test Automation using Selenium.
- BDD Scripts with Cucumber, Smoke, Sanity.
- Requirement Traceability Matrix, Bug Report Sheet, Daily Status Report.
- Data Structures, Database Management Systems, C, C++, Java, HTML, JavaScript, SQL, PLSQL.
- Selenium WebDriver, Appium, API, Postman, Rest Assured.
- Frameworks: Data Driven, POM, Junit, TestNg, Cucumber.
- Tools: Jira, Maven, Jenkins, Oracle, MySQL
- Microsoft Office, C#, .Net Frameworks, Visual Programming, Network Security
- Agile methodologies (e.g., Scrum,)
- Data Driven, POM, Junit, TestNg, Cucumber Exposure on Tools Maven & Jenkins Database Oracle, MySQL Database Tools ISQL Plus (Browser Level), SQLPLUS (cmd Level), TOAD

COURSES / CERTIFICATION

- Diploma in Computer Application - SRM Infotech, Chidambaram
- Honours Diploma in Computer Application - SRM.Infotech, Chidambaram
- Oracle - Apache Computer Education Chidambaram
