- Web Development
- Cloud computing

PROFILE

I want to start my career in a technical role where I can learn new skills and apply my knowledge to real work. I aim to grow professionally, work with a good team, and contribute to the success of the company through hard work and dedication.

PROJECT

Task Time Tracker

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Firebase

Tool Used: Glitch

Description:

a responsive web-based time tracking application that helps users manage and monitor tasks efficiently. Implemented features like task creation, real-time timers, priority setting, and report generation using charts. Integrated Firebase for real-time database, user authentication, and secure cloud storage. The system supports multi-device access and improves productivity through organized task management.
