PROJECTS

- **Golf club website (using HTML, CSS, Javascript)** - [Link](#)

Create a responsive Golf Cube website using HTML, CSS, JavaScript, and Bootstrap. The website features information about golf equipment, services, and booking options, aimed at improving user engagement and online presence. Emphasized clean UI, responsive layouts, and interactive components for a seamless experience across devices.

- **Photoshop Website (HTML, CSS, Reactjs)** - [Link](#)

Built a responsive and interactive web application using React.js, HTML, CSS, and Bootstrap. Focused on delivering a clean and intuitive user interface with smooth navigation and well-structured components. This project enhanced my frontend development skills and understanding of dynamic UI behavior.

- **Ecommerce website (Django, Mysql)** - [Link](#)

Developed a fully functional e-commerce website using HTML, CSS, JavaScript, Bootstrap, Django, and MySQL. The platform includes features like product listing, user registration/login, cart & order processing.

- **Ecommerce Website(Php with Mysql)** - [Link](#)

To design and develop a dynamic e-commerce website using HTML, CSS, JavaScript, Bootstrap, PHP, and MySQL. Implements product display, user registration/login, shopping cart, and checkout functionality.
