SM

SUMMARY

As an automobile engineer with a degree from GRT Institute of Engineering and Technology, I have developed a strong foundation in vehicle dynamics, design, and systems engineering. I am passionate about modern automotive technologies and continuously seek to improve my skills and knowledge in the field. My experiences include academic projects and competitions that have honed my practical engineering competencies.

EDUCATION

Bachelor of Engineering

GRT Institute of Engineering and Technology

📅 08/2011 - 05/2015 📍 Tiruttani, India

LANGUAGES

English
Proficient

Tamil
Native

TELUGU
Advanced

TRAINING / COURSES

Non-destructive testing (NDT)

(NDT) refers to a range of inspection, testing, and evaluation techniques used in science and industry to assess the properties of materials
Importance of NDT:
Cost-Effective: Avoids damaging or destroying test specimens

STRENGTHS

Technologically adept

Ability to adapt to new technologies and integrate them into existing systems.

Problem Solver

Strong problem-solving skills in engineering contexts, with a proactive approach to challenges.

WORKING EXPERIENCE

ENDURANCE TECHNOLOGIES LTD as a quality inspector

ROYAL ENFIELD LTD as Receipt quality control assistant

NOLA DOLA as quality inspector
4 years

SKILLS

Hard Skills

Vehicle dynamics analysis

Automotive systems engineering

quantity assurance casting materials

Soft Skills

Strong analytical skills

Effective communication

Team collaboration

INTERESTS

Automotive Passion

Passionate about automotive technologies, Enjoys contributing to sustainability in the automotive sector.
Sales and customer relationship
