EDUCATION

BIO MEDICAL ENGINEERING

2021-2025 [CGPA 7.5%]

Prince Dr.K.Vasudevan college of
engineering and technology ch-127

2020-2021 HSC (70%)

MPB Government Girls Higher Secondary
School chennai

2018-2019 SSLC (60%)

MPB Government Girls Higher Secondary
School chennai

SKILLS

- Team management
- Equipment handling (hospital)
- Communication Skill
- Documentation Work
- Service Knowledge in Medical device

LANGUAGE

English

tamil

About Me

Dedicated Biomedical Engineering graduate with experience in developing and testing medical devices. Skilled in biomedical signal processing and medical imaging. Passionate about improving healthcare solutions through innovative engineering approaches,

TRAINING AND EXPERIENCE

Intern in Apollo Hospital

PRESENT

- **Medical Device Handling and Calibration**
Defibulator,ECG,Multipara monitor,syringe pump,infusion pump, suction apparatus,ABG,etc..
- **Service Knowledge Medical Device**
Service experience in basic level of semi critical equipment like Pulseoximeter,monitors,syringe pump,infusion pump,Sensors replacement and Soldrings
- **Documentation**
Asset registration ,Acceptance,PO,invoice,installation,Testing,Training

Hospital Training in Apollo Hospital

AUG 2024-SEP 2024

Completed a 15days of hospital training in the apollo hospital
Teynampet (7th semester)

Internship & Training in Deepam Hospital

MAR 2023-APR 2023

Completed an one month internship Training based on the
medical equipment handling in the Deepam Hospital.

Hands On Training in LUBDUB COMPANY

AUG 2024-SEP 2024

Completed a 20 days of hands on training based on the Medical
equipments(Both diagnostic & Therapeutic Equipment)in the LubDup
Manufacturing company Teynampet (7th Semester)

Microsoft Excel course

SEP 2024-DEC 2024

Completed a Microsoft Excel course from beginners to Advanced level in
"Naan Mudhalvan" for 3months (3rd semester)

HOBBIES

Hand crafting
Drawing
Books reading

CERTIFICATE

- Naan Mudhalvan Certified from Microsoft Office Beginners
- Completed 1-week hands-on training on IoT (Internet of Things) and its applications, conducted by Iobit Solutions
- Attended 1-day workshop on medical equipment in-plant training organized by KAV
- Completed 20-days hospital training on equipment handling and management at Deepam Hospital
- Completed training in employability skills development organized by Naandi foundation Microsoft Office Beginners
- Completed a 15-day training on equipment handling and management at Apollo hospital
- Completed a 3 months training on nursing and communication training in ERICSON
- Completed 1 months hands on training based on testing and calibration of medical devices in lubdub manufacturing company

ACADEMIC PROJECT

ELDERSENSE: AI-POWERED HEALTH MONITORING FOR AGING POPULATION

Traditional healthcare systems often fail to provide timely interventions. To address this, we propose an advanced health monitoring system that integrates cutting-edge sensors and AI-powered analysis to ensure proactive elderly care.

FLOOD MONITORING SYSTEM ENHANCING ALARM

DECLARATION

I hereby declare that all the details furnished above are true to the best of my knowledge and belief.
