SUMMARY

Enthusiastic AI student with a foundation in data analytics, machine learning, and project-based learning. Strong understanding of Python, deep learning models, and real-time data applications. Looking forward to applying my skills in impactful role

TECHNICAL SKILLS

Machine learning	Github	Generative AI
AWS	MS office	Google cloud
Database	power point	

PROJECT

Final Year Project: Zero-Shot Learning for Identifying New Crop Diseases

- Collaborated in a team of 3 to develop a deep learning-based crop disease detection system using Zero-Shot
- Learning (ZSL).
- Designed a model to identify previously unseen crop diseases without requiring labeled training data.
- Handled data preprocessing and feature extraction using Vision Transformer (ViT).

INTERNSHIP: EMBEDDED SYSTEM & IOT IN AI

JUL-2023

- Gained hands-on exposure to integrating IoT devices with AI applications.
- Learned sensor data collection, microcontroller interfacing, and edge AI concepts.
- Explored real-time use cases in smart agriculture and automation.

EDUCATION

B.Tech Artificial Intelligence & Data science

OCT-2021 -MAY-2025

Sir Issac Newton College of Engineering and Technology, Nagapattinam
CGPA: 8/10

HSC:

2019-2021

BEST MATRIC HR SEC SCHOOL, SIRKALI

Per: 80

SSLC:

2018-2020

BEST MATRIC HR SEC SCHOOL, SIRKALI

Per: 72

PROGRAMMING LANG

- PYTHON
- SQL
- POWER BI

LANGUAGES:

Tamil
English
