DRBCCC Hindu Higher Secondary School. Tiruvallur.

Percentage : 63%

CERTIFICATION COURSE

Dataanalyticsusing PowerBI -ICT Academy (1 month)

Front-End Developer - Login 360 Velachery (4 month)

PROJECT

Weather App (React.js)

Developed a weather forecasting web app that provides real-time weather updates and forecasts with advanced features, utilizing API integration and voice search functionality.

- Integrated OpenWeatherMap API to fetch real-time weather data, including current conditions, forecasts, and historical weather information.
- Implemented responsive design using CSS Flexbox and media queries to ensure seamless user experience across devices (mobile, tablet, desktop).
- Handled errors by implementing try/catch blocks, validating user input, and displaying user-friendly error messages when data fetch fails or incorrect location is provided.
- Built voice search functionality with Web Speech API, enabling users to search weather information using voice commands for hands-free interaction.
