SUMMARY

I am a dedicated & detail-oriented Bachelor of computer apploication graduate with hands-on experience in application development, web design, database operations.. I enjoy solving real-world problems using technology and have worked on multiple projects involving Python full-stack development. I have a strong interest in database management, IT Service Management, and problem-solving. I am skilled in performing CRUD operations, writing SQL queries & stored procedures, preparing and executing tests, and analyzing system issues to identify root causes.
