IT SUPPORT ENGINEER

CAREER OBJECTIVE

To leverage my IT support skills in incident management, service request fulfillment, and customer service excellence. Dedicated to meeting SLAs, maintaining high-quality standards, and contributing to continuous service improvements while ensuring end-user satisfaction.

TECHNICAL SKILLS

- Hardware
- Microsoft Office Tools
- AI Tools Usage
- Microsoft 365 Admin
- Networking
- Asset Management
- Ticketing Tools
- Operating System
- Remote Tools

KEY COMPETENCIES

- Incident & Service Request Management
- SLA & KPI Adherence
- Remedy Ticketing Tool
- Knowledge Base Management
- Customer Communication & Escalation Handling
- Batch Process Monitoring & Shift Handover Reporting
- Continuous Service Improvement (CSI) Contribution

WORK EXPERIENCE

IT Support Engineer (Course) – VEP Tech Academy

June 2025 – Aug 2025

- Logged and tracked incidents/service requests using ticketing tools (ServiceNow, Freshdesk).
- Applied first-level troubleshooting for hardware, OS, and network issues within defined SLAs.
- Practiced escalation procedures for unresolved or complex issues.
- Prepared process documentation and updated knowledge base articles.
- Simulated batch process monitoring and shift handover reporting in lab scenarios.

PROJECTS & PRACTICAL EXPERIENCE

A secure framework for accessing trusted computing and storage levels

Apr 2023 - May 2023

Healthcare providers may shift from paper to Electronic Health Records (EHRs), which improve care quality and efficiency without affecting privacy or security. This project develops a secure cloud framework ensuring confidentiality, integrity, authentication, and authorization across all public cloud levels, protecting against internal, external, active, and passive threats.

Crop Yield Prediction Using Machine learning

July 2021 - Jan 2022

Developed a Crop Yield Prediction and Fertilizer Recommendation system using machine learning, enhancing agricultural productivity by analyzing soil and weather data to predict crop yields and recommend optimal fertilizer use. Implemented predictive models, data preprocessing techniques, and evaluation metrics to ensure accuracy and reliability.

ADDITIONAL SKILLS

- Communication Etiquette in Calls/Chats
- Customer Complaint Handling
- Collaboration in Knowledge Sharing Sessions
- Ensuring timely resolution of incidents and requests within defined service levels.

TOOLS & TECHNOLOGIES

- Tools: ServiceNow, Freshdesk, Remedy, AnyDesk, TeamViewer

PROFESSIONAL DEVELOPMENT

- Attended Azure Administrator Fundamentals Workshop and IT Security Awareness Training.
- Completed Microsoft 365 Administration Basics and Networking Fundamentals Workshop.
- Participated in Incident Management & SLA Adherence training sessions.
- Gained hands-on experience with Remote Support Tools and Operating System Administration labs.

EDUCATION

- B.tech - Computer Science Bharath University, Chennai 2019 - 2023
- HSC mohamed sathak dastagir matriculation School, Chennai 2018 - 2019
