ABOUT ME

To leverage my proficiency in Python and SQL for robust data analysis and management, and my skills in HTML, CSS, and office automation to drive process efficiencies. My goal is to apply these technical abilities and strong communication skills to extract valuable insights from data, solve complex business problems, and contribute directly to a company's strategic growth

EDUCATION

B.E/ECE - RVCE

Cgpa - 7.82
2021 - 2025

HSC - GHSS

Percentage - 82.6
2020 - 2021

SSLC - GHSS

Percentage - 79
2018 - 2019

Technical Skills

- Python
- SQL
- Office automation
- HTML, CSS

Soft Skills

- Team work
- Problem Solving
- Effective Communication

PROJECT EXPERIENCE

Automatic irrigation system

Developed an automated irrigation system using a soil moisture sensor and a microcontroller to optimize water usage. The system automatically turns a water pump ON/OFF based on real-time soil moisture levels, preventing over-irrigation. This project promotes water conservation and reduces labor, offering a scalable solution for sustainable agriculture.

Job Portal Web Application

Job Portal Web App – Developed a full-stack web application using HTML, CSS, JavaScript, and Flask. Implemented RESTful APIs for user authentication and job management. Enabled employers to post jobs and seekers to apply seamlessly. Focused on responsive design and secure data handling.

Sales And Customer Analytics

Sales and Customer Analytics – Built a data-driven web application using React.js for the frontend and Flask with RESTful APIs for the backend. Designed interactive dashboards to visualize sales trends and customer insights. Enabled real-time data analysis to support business decision-making.

INTERNSHIPS

- I completed a Python Development internship at Getin Technology in Virudhunagar from July 22 to August 10, 2024, where I gained practical experience and a deeper understanding of Python projects.
- I completed an embedded systems and IoT training internship at AB Technology in Tirunelveli from July 10 to July 16, 2023, where I gained hands-on experience in these fields.
