PROJECTS

Employee Motivation Worksheet Survey System

Developed using .NET framework, this project automates the process of evaluating employee performance based on bug-fixing efficiency and rewards top performers. The system enhances motivation and transparency in employee recognition.

Why this fits Digital Marketing?

Marketing also uses surveys, feedback & engagement analysis.

Sentiment Analysis Using Machine Learning Models

This project compares Decision Tree, SVM, CNN, and LSTM models—enhanced with TF-IDF Vectorization and CNN, LSTM models—enhanced with Word2Vec—to sentiment analysis of movie reviews, achieving up to 97% accuracy with CNN and Word2Vec.

This is PERFECT for Digital Marketing analytics

Recruiters LOVE “customer sentiment” word.
