Objective

Results-driven Electrical Engineering student with strong academic performance and hands-on project experience. Interested in software development, data analysis, and automation. Seeking opportunities to apply technical expertise, learn new skills, and contribute effectively in a challenging technical environment.

Education

B.E. Electrical and Electronics Engineering

Adhi College of Engineering and Technology
2022 – 2026 (Pursuing)

HSC (12th Grade) – 80%

[Your School Name], 2022

SSLC (10th Grade) – 76%

[Your School Name], 2020

Technical Skills

- Programming Languages: Java, C
- Tools & Software: MS Excel
- Domains of Interest: Software Development, Data Analysis, Automation, Power Systems, Embedded Systems

Project

Automatic Waste Segregation System

- Developed a prototype to segregate waste automatically based on material type using sensors and automation.
- Improved waste management efficiency and reduced manual intervention.

Certifications & Workshops

- Universal Human Value Workshop
- Robotics Operating System

Personal Information

Name: Janagidevi V

Location: Tamil Nadu, India
