PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented B.Sc. Physics graduate with a strong foundation in analytical thinking and problem-solving. Completed certified courses in **Data Science and Data Analytics**, gaining knowledge in data handling, visualization, and basic machine learning concepts. Familiar with tools like **SQL, Power BI, Excel, and Python**. Eager to start a career in the field of data analysis, where I can apply my skills to derive meaningful insights and support data-driven decision-making.

TECHNICAL SKILLS

- Data Science & Analytics: Data Cleaning, Exploratory Data Analysis (EDA), Data Visualization, Basic Machine Learning
 - Programming Languages: Python (NumPy, Pandas, Matplotlib)
 - Database Management: SQL (Queries, Joins, Aggregations, Subqueries)
 - Business Intelligence Tools: Power BI (Dashboard Creation, DAX, Power Query, Report Publishing)
 - Spreadsheet Tools: Microsoft Excel (Formulas, Pivot Tables, Charts, Data Validation)
-

PROJECT

PYTHON: Body Fat Analysis | [Link](#)

- Analyzed 500+ records to predict body fat percentage using Linear & Logistic Regression.
- Improved model accuracy by 85% through data preprocessing and feature selection.
- Visualized trends using bar charts, line graphs, and scatter plots for insights.
- Utilized Python, Pandas, and NumPy for data processing and model development.

POWER BI: HR Dashboard Preparations | [Link](#)

- Designed and developed an interactive HR dashboard to visualize employee data such as headcount, department-wise distribution, attrition rate, and gender ratio.
- Utilized Power BI features like DAX functions, Power Query, slicers, and filters for better insights.
- Connected data from Excel, cleaned and transformed it for reporting purposes.
- Enabled management to make data-driven decisions through clear and insightful visual reports.

SQL: WOMEN PREMIER LEAGUE 2024 Database Management System | [Link](#)

- Designed and implemented a database management system to store and manage player profiles, match schedules, team information, and performance statistics.
 - Used SQL to create and manage tables, write complex queries, and retrieve match and player data efficiently.
 - Ensured data integrity and optimized query performance for faster access to records.
 - Helped simulate real-world sports league data handling for better organization and reporting.
-

EDUCATION

- **Raja Doraisingam Government Arts College – Sivagangai**
Bachelor of Science in Physics | CGPA: 7.4 | June 2021 – May 2024
 - **De Britto Higher Secondary School – Devakottai**
HSC | Percentage: 73.463% | May 2021
 - **Government High School – periyakannanoor**
SSLC | Percentage: 61% | March 2019
-

CERTIFICATIONS: Data Science and Data Analytics Course – Besant Technologies Velachery, Chennai.
