Professional Summary

- Dynamic and detail-oriented Service Operations Specialist with 7+ years of experience in Order-to-Cash, BOM, SKU management, and technical customer support.
- Adept at leading cross-functional teams, optimizing enterprise systems (SAP, SFDC, SAP ATTP), and ensuring SLA adherence with consistently low AHT.
- Proven track record of enhancing operational workflows, driving process automation, and ensuring data integrity in high-volume global environments.
- Recognized for improving team efficiency and contributing to business continuity and success at HP Inc. and HPE.
- Conceptualized and implemented an end-to-end “No-Touch SKU” process, significantly improving team-level validation metrics. (Macro)

Professional Experience

Service Segment Manager (HPE) Nov 2022 - Present

- Led a team of 12 members, driving collaboration, productivity, and performance for over a year.
- Managed end-to-end Order Management and Order-to-Cash processes with a focus on accuracy and timeliness.
- Created and released product and serial numbers, ensuring alignment with product specifications.
- Integrating new vendors into the organization's systems and processes.
- Scoring vendors against predefined criteria (price, experience, certifications, etc.) is a common practice.
- Processed and managed customer orders through SAP, ensuring accuracy and timely fulfillment.
- Delivered enterprise-level technical support via phone, email, and remote sessions with strict SLA adherence.
- Efficiently resolved open tickets and customer issues, consistently maintaining low Average Handling Time (AHT).
- Conducted availability checks, coordinated with warehouse and logistics teams to ensure prompt delivery.
- Generated order status reports and maintained order documentation for audits and reviews.

Business Associate (HPI) | Oct 2018 – Nov 2022

- Managed global product classification and Bill of Materials (BOM) creation for Assemble Version (AV) SKUs.
- Created purchase info records and estimated standard costs for SKUs and UIDs, ensuring data consistency.
- Developed source lists and configured list and reference prices for UIDs and Canadian SKUs.
- Executed BOM creation and engineering change updates in alignment with SKU requirements.
- Coordinated with manufacturing units for customized SKU configuration and plant-specific BOM extensions.

Key Contributions:

- Introduced enhancements to the OPINEL process, reducing manual errors and improving data accuracy across operations.

Education

- **Bachelor of Science (B.Sc.) -Chennai – 2017**
