Objective

After gaining valuable experience as a Pre EL Operator at TATA Power Solar Limited, I am now seeking a new opportunity where I can apply my skills, learn new technologies, and grow both personally and professionally.

Experience

- **TATA Power Solar Limited, Gangaikondan, Tirunelveli** 25.06.2015 - 29.10.2015
Pre EL Operator
 - Operate and monitor Pre-Electroluminescence (Pre-EL) machines to inspect solar cells before lamination.
 - Identify and report defects such as cracks or micro damages to ensure panel quality standards.
 - Maintain equipment cleanliness and follow safety and production protocols to ensure smooth workflow.
 - Support the production team by assisting in quality control and process improvement activities.

Education

- **University VOC College Of Engineering, Thoothukudi** 2015
B.E Electronics And Communication Engineering
7.36
- **Government Model Higher Secondary school, Asthinapuram, Ariyalur district** 2011
Tamil Nadu State Board HSLC
82
- **Government Model Higher Secondary school, Asthinapuram, Ariyalur district** 2009
Tamil Nadu State board SSLC
71.2

Technical Skills

- UI design
- Embedded System and IoT(Arduino)
- MS office (Words, PowerPoint, Excel)
- Web Development (React.js, Flask, HTML, CSS)

Projects

- **Garbage Segregation And Bin- Level indicator , 2024**
It enhances waste management by automating waste segregation and providing real-time monitoring of bin levels.
- **Speech To India Sign Language Converter Using Natural Language Processing**
Developed a web application that converts speech or text input into Indian Sign Language using NLP, with multi-language like (Tamil, English and Hindi)support and dynamic ISL video/image display.

Internship

- **Internship on “UI/UX design”, Digisailor software company, Thoothukudi on 2024**
Animation scrolling in smartwatch UI design usessmooth movementsto help users navigate easily on the small screen.
- **Internship on "Internet of Things" in NoviTech the innovation partner on 2025**
Gained hands-on experience in IoT fundamentals, sensor integration, and data communication. Worked on projects involving microcontrollers and cloud connectivity, enhancing understanding of real-time monitoring and automation systems.

Interests

- Designing mini website and UI mockups in free time
- Videos and Photo editing

Soft Skills

- Team player
- Time management
- Production work
- Issue resolution
