Objective

Aspiring Full Stack Developer passionate about building scalable applications, solving complex problems, and creating seamless user experiences. Enthusiastic about AI-driven innovations and eager to contribute to impactful projects while growing as a software engineer.

Skills

Programming: Java, C, HTML, CSS, JavaScript

Frameworks/Tools: Postman, Git/GitHub, Firebase

Database: MySQL

Soft Skills

Team Management, Decision Making, Time Management, Adaptability

Internship

phoenix Infotech

MERN STACK | July 2025

- Enhanced MERN Stack Development Skills through hands-on projects and full-stack debugging tasks.

Gained practical exposure to real-world web application development using MongoDB, Express.js, React.js, and Node.js.

Achievements

SMART INDIA HACKATHON (SIH) PARTICIPATION

- Led Team Optimus Prime in the Smart India Hackathon, developing 'Smart Health Guardian,' an AI and IoT-based remote health monitoring system with health kiosks, ML-driven analysis, and mobile connectivity to improve rural health-care accessibility, early diagnosis, and preventive care.

Projects

Sales Region Analysis

Analyzed regional sales datasets to identify performance trends across multiple markets, delivered actionable insights that improved sales strategies and resource allocation.

Education

Unnamalai Institute of Technology

B.E in Computer Science and Engineering

Expected June 2026 | CGPA: 7.5/10

Govt.Hr Sec School

HSC in Computer Science

May 2022 | Percentage: 69

Coursework

- Java Collection Framework
- React-the Complete Guide
