📄 PROFILE

CSE graduate with skills in HTML, CSS, JavaScript, and the FULL stack. Skilled in building responsive web applications through projects and internships. Quick to grasp user needs, collaborate effectively, and eager to begin a career in web development creating seamless user experiences.

🏢 PROFESSIONAL EXPERIENCE

Internship in Full Stack Web Development, MARCELLO TECH TRICHY | Feb - May [2025]

- Completed a Full Stack Developer internship, gaining hands-on experience in front-end and back-end development, working on real time web projects, and enhancing my skills in building responsive interfaces, managing databases, and integrating APIs.

Internship in Web Developer, FUSION FATHOM | Jan- Feb [2025]

- Completed a one-month internship as a Web Developer Intern. Gaining hands-on experience in Website development skills in HTML, CSS & JAVA and a keen willingness to learn.

🧠 SKILLS

Technical Skills — Front-end development: HTML, CSS, JavaScript, React | Back-end development: JAVA, SQL, MySQL, PHP

Tools — Xampp | Apache | MS Office | Postman | Eclipse Oracle | Git and GitHub | Extensions | SQL Plus

📖 PUBLICATIONS

- *Early-Stage Oral Cancer Identification Using White Light Imaging and LightGBM Algorithm*, International Journal for Science and Advance Research in Technology (IJSART), Vol. 11, Issue 3, March 2025.
- *Early-Stage Oral Cancer Identification Using White Light Imaging and LightGBM Algorithm*, International Conference on Recent Trends in Technology (ICRTT), Vol. 11, Issue 3, May 2025.

🎓 EDUCATION

B.E CSE | 7.5 CGPA,
Chettinad College of Engineering & Technology
2021 – 2025 | Karur

📜 CERTIFICATES

Full Stack Development— Certified by Novi Tech

Cloud Computing — Certified by Oracle

Web Development — Certified by CodeBind Technologies

Basic of UI/UX — Certified by Simple Learn

Digital Marketing — Certified by IIDE

📁 PROJECTS

Early-Stage Oral Cancer Identification Using White Light Imaging and Light GBM Algorithm ✍

Oral cancer is a major global health issue, and early detection is crucial for improving survival rates. To overcome these challenges, this project uses machine learning (ML) to detect oral cancer more accurately and efficiently. We develop a system using Python, with Flask for the backend and HTML, CSS, and JavaScript for the frontend.

E-Commerce Website ✍

Developed a responsive online shopping platform with sections like Home, Accessories, Clothing, and Contact. Integrated features such as video call support, order status tracking, and "Discover Your Style" for personalized shopping. Built using HTML, CSS, JavaScript, PHP, and MySQL.

Home Made Products ✍

Developed an online platform to showcase and sell homemade products with sections like Home, Shop, Categories, About, and Contact. Included features such as order status tracking and a secure login and registration system using HTML, CSS, JavaScript, PHP, and MySQL.

Movie Ticket Booking ✍

Created a web-based platform for booking movie tickets with sections like Home, Movies, Theaters, Offers, Gift Cards, and Contact. Integrated location and language for a personalized user experience using HTML, CSS, JavaScript, PHP, and MySQL.
